

# SSPC REMOTE MEMBERSHIP RENEWAL 2022 GUIDANCE NOTES

## SUBSCRIPTION 2022      FAMILY £100      SINGLE £50

An account of the 2021 AGM along with the Accounts and Annual Report for the year are available on the website. Shere Swimming Pool Club continues to operate as a Charity. (Registered Charity No.1184796). Annual subscriptions are to remain at 2021 levels for the 2022 season.

In 2022 it is expected that the pool will open at the beginning of May. The date of opening will be confirmed on the website in due course and will, in part, be dependent upon Government advice at that time as it relates to the ongoing Covid-19 Pandemic.

The timetable for applications to be submitted will remain unchanged for the 2022 season, namely:

- Local renewals may be submitted from 1 January
- New local memberships may be submitted from 1 February
- Remote renewals may be submitted from 1 March

## BOOKING SYSTEM AND LANE SWIMMING

The Committee has considered all feedback received, members' stated preferences and the ongoing impact of the Covid-19 pandemic and has decided that the booking system will, for the majority of pool opening times, continue to operate for the 2022 season. Bookings and lane swimming will remain the principle basis for swimming but there will be certain times during the week when no booking or lane swimming will be required. The exact timing of these open swimming sessions will be finalised in due course. A review of the basis of operation, as it will apply when the pool reopens, will be reviewed by the Committee after several weeks of the pool being open.

## PAYMENT OF SUBSCRIPTIONS IN 2022

Once again payment of subscriptions, wherever possible, is to be by bank transfer for the 2022 season, to reduce the administrative burden of cheque handling. Cheques or cash will still be accepted where members are not able to pay bank transfer, but their use should be minimised.

By way of reminder, **THE APPLICATION PROCESS IS NOW A 2 PART PROCESS**

In summary, an application form should be submitted in the usual way and as set out below.

Once this application has been processed, and assuming it is approved in principle, the Membership Secretary will send the applicant an email which will state a unique membership ref. for the 2022 season and requesting the applicant to make the appropriate payment online.

The applicant must, on receiving this email or postal receipt, promptly (ie **WITHIN 10 WORKING DAYS**) make a bank transfer for the appropriate amount, ensuring to give the unique ref as the reference for the transfer.

**ONLY ONCE THE APPLICATION HAS BEEN APPROVED AND THE BANK TRANSFER MADE WILL THE APPLICATION BE CONSIDERED COMPLETE AND THE MEMBERSHIP FOR 2022 BE EFFECTIVE. A RECEIPT CONFIRMING THAT THE PROCESS IS COMPLETE WILL BE SENT BY EMAIL WHERE THE APPLICANT HAS PROVIDED AN EMAIL ADDRESS.**

**WHERE NO EMAIL ADDRESS IS GIVEN AND/OR WHERE A GATE CARD OR GUEST TICKETS HAVE BEEN REQUESTED, THE RECEIPT AND/OR CARD/TICKETS WILL BE SENT BY POST SO LONG AS AN SAE HAS BEEN PROVIDED AT THE TIME OF APPLICATION.**

## **NO EMAIL APPLICATIONS WILL BE ACCEPTED.**

**FAMILY** = 2 ADULTS and all children under 19 at September 1<sup>st</sup> 2021 who permanently reside at the LOCAL address given.

**It does not include** members of your extended family or friends who are visiting you or live nearby or random friends of your children. These may be taken to the pool as:

**GUESTS:** For each guest you must provide a valid GUEST TICKET on which you have recorded your details OR a fee of £1 per guest either of which must be placed in the box provided WHEN YOU SIGN IN ON ARRIVAL. The number of guests and tickets/cash deposited must be recorded on the Sign In sheet.

**ADDRESS:** This is your permanent residential address, not an address of convenience.

**VOLUNTEERS TO HELP IN FILTER ROOM:** Please would anyone who considers him or herself practically and technically minded and is interested in joining the rota team that oversees the Filter/Plant Room contact Steve Moggs via his email, [steve.moggs@gmail.com](mailto:steve.moggs@gmail.com).

**DONATIONS:** The Swimming Pool is currently undergoing the second phase of modernization namely the rebuilding of the changing rooms. It is intended that a third and final phase will be initiated next winter and will involve the installation of an air source heat pump. The Committee continues to be grateful for any additional donations, however small, towards the costs of the air source heat pump and other further modernisation works. These can be made at the time of applying for membership. To make a donation, please complete the relevant section of this form and include a separate cheque when returning your 2022 membership application form. **Donations should continue to be made by cheque unless otherwise agreed with the Membership Secretary.**

**GIFT AID:** If you do make a donation, are a UK taxpayer and would also like to complete the Gift Aid form attached, this will enable 25% tax to be reclaimed in connection with your donation.

### **SOME OF THE RULES DISPLAYED AT THE POOL**

The pool is small which imposes limitations on its safe use.

**NO DIVING** under any circumstances (GBC safety recommendation) The pool is not deep enough to allow this.

**NO BOMBING** under any circumstances (GBC safety recommendation) This could obviously represent a danger to others, especially so when the pool is crowded.

**NO JUMPING** close to other swimmers.

**NO INFLATABLES** (GBC safety recommendation) No large tyres, lilos or similar may be used in the pool. Individual small scale flotation aids such as arm bands and back packs may be used.

**NO THROWING** Throwing of items such as wet tennis balls is a danger to all inside the enclosure.

### **FURTHER GBC SAFETY RECOMMENDATIONS**

**MAXIMUM NUMBER IN THE POOL ITSELF = 50.**

Please use your good judgement to avoid the dangers of overcrowding.

### **CHILD SUPERVISION**

All young persons under 18 years of age must be accompanied and supervised\* by a known adult member at all times within the pool enclosure whether in or out of the water.

The only exception to this is that if a child who is part of a family membership and aged 16-18 during the season has also signed this form accepting the rules. In this case he or she may then swim without supervision so long as they are able to swim a width unaided. But please note that, in addition to that child being responsible for his or her behaviour at the Pool, the parents of that child will also remain fully responsible for the behaviour of that child and any guests while at the pool.

If a young person or persons is left unattended within the enclosure the complete membership will be terminated irrespective of which family member may have been at fault.

Young persons under 16 who cannot swim one width **MUST** be accompanied **IN THE WATER** by a known adult.

\*Supervision ratios:

Children under 8 years - a maximum of 3 children to 1 adult  
(the adult must accompany the children in the water)

Children over 8 years and under 16 years - a maximum of 6 children to 1 adult (the adult must remain within the pool compound and be able to see the children in their care at all times).

All children 2 years and under and those not fully potty trained should wear a proper swim nappy.

Babies under the age of 6 months are not allowed in the water as the pool water chemicals may affect sensitive skin. This is a Pool Water Treatment Advisory Group (PWTAG) guideline.

Warning: If you are found to have left a young person or persons unattended within the enclosure your membership will be terminated.

### **DATA PROTECTION**

The information you provide in this form will be used solely for dealing with you as a member of the Shere Swimming Pool Club.

The club has a Data Privacy Policy which can be found at [sherepool.org.uk/membership/privacy](http://sherepool.org.uk/membership/privacy). Your data will be stored and used in accordance with this Policy.

However, please note that a child 16 or under who cannot swim 2 widths must be accompanied by an adult IN the water and therefore a family membership is required.

\*Young persons in the household who were 19 before September 1st 2021 require their own single membership

All 2021 cards have been deactivated. You do **not** need to return your swipe card with your application form, but you do need to confirm to us the numbers on it. The card will be re-activated remotely. **However, it is essential that you provide the card number (found top right, printed into the card) on the form to allow this to be done.** Your membership number is useful but **not sufficient** to allow activation.

If you would like to buy guest tickets, please send £10 for each book of 10.

Please use correct postal charge on your application. The club will not pay the penalty charge for mail carrying insufficient postage and it will eventually be returned to you by the postal system after considerable delay. Should you then reapply, membership may well have been filled by that time.

Following a visit from, and recommendations made by, RoSPA, we have drawn up an Emergency Action Plan. A summary of the Plan is included with this form as it is important that all members are familiar with what to do in an emergency. Please take time to read it.

## **SHERE SWIMMING POOL CLUB (Registered Charity No. 1184796)**

### **EMERGENCY ACTION PLAN – Summary for members**

This **summary Emergency Action Plan (EAP)** sets out what **members** should do in the event of an emergency. (*Greater detail is provided in the full EAP kept next to the First Aid Box, in the signing-in room*).

*Members should recognise that **in the event of an emergency**, they need to **take responsibility for their own safety**, as well as to **offer help to other users of the pool**. The responsibility for dealing with accidents – both in and out the pool – is therefore with the users of the pool at the time the incident occurs.*

Firstly you will need to decide, as a matter of urgency, whether you need to contact the Emergency Services (ambulance, fire or police) by calling 999 or only to contact an appropriate Committee or Rota Team member, as well as taking any action yourself.

**Committee members with their roles and contact phone numbers are displayed on the wall to the left of the emergency-only telephone.**

#### **First aid provision and emergency equipment**

A **First Aid Box** is located on the wall in the signing in room. An eye wash kit is located on the wall inside the pump room (normally locked).

An **Emergency Telephone** capable of dialling only 999 is provided.

A **Defibrillator** is located on the wall of the Co-Op in Shere (see map).

A **reach pole and hook** is located on the wall next to the pool.

**Life buoys** are located on the wall outside the pump room and next to the signing in room.

#### **First aid procedures**

Where an accident is deemed to be serious the emergency services should be called using the **Emergency Telephone**. The address of the pool is displayed by the emergency telephone.

All accidents and details of any treatment must be recorded by an adult in the **Accident Book**. This can be found in the signing in room.

Precautions should be taken where possible to protect individuals from the risk of infection, e.g. the **use of gloves** (kept in the first aid box) to prevent contact with the victim's blood.

#### **Serious injury to a swimmer**

**Casualty in the water** – where possible, get help from another pool user.

Recover the casualty – use the reach pole if this helps – and carry out **First Aid**.

In the event of resuscitation being required, **evacuate the pool area** and move bystanders/spectators away.

In cases of serious injury, **broken bones, suspected spinal cord injury (SSCI)** or unconsciousness **do not move** the patient until first aid has been given and a Paramedic/Doctor has authorised the movement of the casualty.

Ensure that a crowd does not gather around the casualty.

If the heart has stopped beating **commence cardiopulmonary resuscitation (CPR)**. Continue CPR until the casualty restarts breathing and a pulse is found, or until Paramedics take over. Patients who have been resuscitated shall be **treated for shock** until the ambulance arrives.

If the **ambulance** is called, one person should be designated to meet the ambulance at the main road to escort them to the scene of the incident as speedily as possible.

All cases of **head injury** or **SSCI** shall be treated as serious and an **ambulance** should be called. In **no** circumstances, should the casualty be permitted to return to the pool at any stage even if they appear to be well. Delayed concussion is a real possibility and may lead to loss of consciousness in the pool.

#### **Fire & Evacuation Procedures**

- Raise the alarm (if necessary use the whistle in the signing in room)
- Ask all pool users to leave the pool compound eg.  
“Attention please, due to a fire you are asked to leave the pool area as quickly as you can and to assemble on the field outside the pool compound. Stay calm - there is no need for panic.”

- People should not be allowed to get fully changed, but only to dress for decency, so long as this does not put them in any danger.
- Ideally another person should be asked to report the fire to the Emergency Services – either by using the Emergency telephone provided or from a mobile phone. Please note the time the report is made.  
The location of the pool is ***Shere Swimming Pool, behind Shere Infants School on Gomshall Lane, Shere.***  
The nearest postcode is **GU5 9HB** The grid reference is **TQ074478**
- Remain in a safe location by the gate (inside if possible) to await further instructions from the Fire Brigade.
- Do not allow any pool users to access the pool compound.

### **DO NOT TAKE ANY PERSONAL RISKS**

**ONLY** attempt to extinguish a fire if you have been trained and you believe you can do so without putting yourself at an unacceptable risk.

A fire extinguisher is located within the plant room (normally locked).

### **Toxic Gas (chlorine) Escape**

In the unlikely event of a fault in the plant room that results in a significant emission of chlorine gas, pool users should move or be led away from the danger area upwind of the source.

- If evacuation of the pool area is considered necessary users of the pool must leave immediately via the main exit and ensure they stay upwind of the leak.
- Any person who has been gassed with chlorine must be taken to hospital as serious symptoms may develop at a later stage. Appropriate first aid should be given.
- If present, the above evacuation procedures are the responsibility of the Pool Operator/ Deputy and/or Rota Team members or other members of the SSPC Committee. If not present, inform any of these of the situation as soon as possible after the incident.

### **Significant Lack of Pool Water Clarity**

If the water begins to become cloudy, contact the Pool Operator/Deputy or another Rota Team member to arrange for appropriate measures to be taken

### **Blood and Vomit in the Pool**

- Clear the pool  
(if necessary use the whistle in the signing in room)
- Allow the pollution to disperse and any infectious particles to be neutralised by the disinfectant in the water
- If the volume of pollution is significant and/or dispersal is not proceeding, contact the Pool Operator/Deputy or another Rota Team member to arrange for appropriate measures to be taken

### **Diarrhoea or Solid stools in the Pool**

- Clear the pool  
(if necessary use the whistle in the signing in room)
- Contact the Pool Operator/Deputy or another Rota Team member to arrange for appropriate measures to be taken

### **Lightning Storm**

If a lightning storm threatens **leave the pool** and the pool compound and seek refuge in a car or in buildings. The changing rooms and signing in room areas are unlikely to be completely safe to shelter in.

### **Disorderly behaviour**

Steps need to be taken to stop any behaviour which is likely to cause a nuisance or is dangerous to other pool users.

If the action represents a contravention of the rules of the pool, then any member is entitled to point this out to those who are behaving in a disorderly manner, and, should the behaviour continue, to report the unacceptable behaviour. Ultimately it is the responsibility of any SSPC Committee Member to take appropriate action, so if the issue is urgent and intervention is necessary, use your own phone to call a Committee Member to inform them of the situation.

Exceptionally, it may be appropriate to call the police, but only if there is really a serious emergency requiring their involvement.
